

INTENSIVE LANGUAGE TRAINING

FRENCH, GERMAN, SPANISH
AND MANY MORE...

Intensive language training, away from the distractions of your office, is very effective when you need to achieve a particular level by a certain date. You will often find it easier to set aside a week to immerse yourself in the language learning process.

WE OFFER BESPOKE, GENERAL OR SPECIALISED SEMI-INTENSIVE AND INTENSIVE COURSES:

SEMI-INTENSIVE

Between 3 and 4 hours a day, every day for a week or a fortnight. You still have time to go back to the office to catch up on emails and attend meetings.

INTENSIVE

Between 5 and 6 hours a day, usually for a week (or two), to achieve greater results quickly.

We offer both semi-intensive and intensive courses in two formats: our "Standard Intensive" is all classroom-based whereas our "Intensive-Practical" combines 'typical' classroom sessions with 'outdoor' sessions, accompanied by your teacher. They are timetabled in your programme so as to enhance the knowledge gained in our fully-equipped learning centre.

Examples of outdoor sessions, among others:

- A drink at a coffee shop (revise menu items and practise chit-chat);
- A wander around the streets (practise directions, describe people and places);
- A trip to the local market/supermarket (revise non-specialised vocabulary, practise prices, make shopping lists for special events);
- A cultural visit of interest (such as a museum, a castle, a church).

Conversation carries on in the language studied but with a change of focus: an opportunity to stretch your legs. Your teacher will give you comprehensive feedback when you are back in class.
